

FARBEN SHINE RETENAL MSE Autobasifying Chrome Tanning Agent

Appearance: Green powder

Characteristics: Slightly masked alkaline chromium

sulphate

Cr₂O₃ (%) : 20,0 pH Value (10 % in water) : 4,0 - 5,0 Basicity (%) : 50,0

PROPERTIES AND APPLICATION:

-Farben Shine RETENAL MSE is a homogeneous alkali-free chrome tanning agent. At the end of the tanning using this product does not require basification. The color of the leather is more homogeneous, its skins are more thinner and fuller. It ensures more homogeneous dyeing. Even in the short bath, product dissolves so that there is no sediment.

-At the end of chrome tanning with Farben Shine RETENAL MSE, in order to stabilize pH value 3,8–4,0 should be avoided from very acidic pickle bath. It is especially suitable for fur sheep and lamb skins.

Recomended usage rates:

Second chrome stage 4,0 – 6,0%

STORAGE:

In a cool and dry place in original packaging, can be stored for a period of one year. Product must be protected from excessive heat and cold.

PACKAGING:

25 kg bag.
