

FARBEN
THE CHEMICAL PRODUCER

FARBEN SHINE RETENAL GT 50 **Aldehyde Based Tanning Agent**

Appearance	: Light yellowish, clear liquid
Characteristics	: Glutaraldehyde
Concentration(%)	: 50,0 ±1,0
pH Value (Direct)	: 3,2 - 4,2

PROPERTIES AND APPLICATION:

-Farben Shine RETENAL GT50 is a material having good tanning properties in wide pH range. It is compatible very well with mineral tanning agent, pickle type and neutral salts in every mixture and concentration.

-Farben Shine RETENAL GT50 when used as a tanning agent alone at a temperature above 80°C gives non-shrink, full touch leather.

-Pre-tanning done with Farben Shine RETENAL GT50, also allows tannins to be fixed better in vegetable tanning. When the product is also used as retanning agent, while increasing resistance to base reduces water permeability of vegetable tanning leather.

-Leather tanning with Farben Shine RETENAL GT50 can be dyed more homogeneous and more vivid.

Recommended usage rates:

For vegetal tanning, on pelt weight	1,0 – 2,0 %
Pickle and tanning of thick and soft leather	1,5–3,0%

STORAGE :

In a cool and dry place in original packaging, can be stored for a period of one year. Product must be protected from excessive heat and cold.

PACKAGING :

120 kg drums.
